A LEADING DEMOCRAT OF KANSAS SPEAKS OUT.

COGENT REASONS FOR OPPOSING THE CHICAGO

TICKET AND PLATFORM. Topeka, Kan., July 6.- In sober truth there is

no longer any Democratic party in the country; there is simply a Cleveland craze as destitute of any sense or reason as a ghost dance, and I assure you there are a good many self-respecting Democrats over the country who are taking no result will show next November." The speaker was Colonel William P. Tomilison, for

cars the senior editor and part proprietor of "The Kansas Dally Democrat," the leading Democratic daily paper in Kausas. Editor Tomlinson a week ago in "The Democrat" came out in a column leader against Cleveland, and for Harrison and Reid, a declaration which caused not a little flutter in the Democratic ranks. Continuing, Mr. Tomlinson said, with a fine touch of frony: "Yes, Grover Cleveland has shown in his capture of the Chicago Convention that he is the autocrat of Democracy. The fruitless search of the centuries has been solved. At last a man has been discovered who is bigger than his party. Suchem-Croker, of Tammany Hall, is a 'heap big Injun,' but what are all the chiefs of Tammany combined compared with the great sachem and all-conquering brave who holds as a trophy the scalp-lock of the entire Democratic party.

· Wus ever the humiliation of a great party abject and complete. The beaten candidate of 1888 repudiated by his party in his own state, trampling upor all the traditions, all the precedents of American history, was yet strong enough to force a nomination notwithstanding his own famous and emphatic declara-tion in 1884 in favor of limiting the Presidency to one claring in the most solemn language against the evils corporated into the Constitution preventing the innomination for President, in the Irony of fate and to the lasting humiliation of the Democratic party, is himself a candidate for the third time for chief executive of the

Yet this man, who is foresworn, who has thus trified with his convictions as no man who has ever sought the Presidency, is held up by reformers of the of George William Curtis, as a model, and the loftlest type of the American state-man.

"So much for this revelation of Grover Cleveland

a man. Viewed from the standpoint of principle, in sense is the Sage of Buzzard's Bay a Democrat. His record, both as Governor of New-York and as President of the Republic, belies the assertion of his Democracy. The nomination of Grover Cleveland is the exaltation of the Mugwumps; not the elevation or ognition of true Democracy.

If Grover Cleveland is in any sense a Democrat, l

happy to say that I am not a Democrat. On the ff issue Mr. Cleveland is an out-and-out free-trader. thile I am a firm believer in the good old Democratidoctrine of a tariff for revenue, with incidental probug, while I am an enthusiasite advocate of free coinage. On the question of civil service, Mr. Cleveid is a Mugwump of the most aggravated type, while belong the spells of war.' beaten candidate of 1888, forced against all

ecedent upon the stalwart and justly indignant De-eracy of the great State of New-York, the idol of Mugwamps, there can be no such a thing as over Cleveland ever again seeing the interior of the ate House as a Presidential occupant.

"All the past unpopularity of the ex-President, the

"All the past unpopularity of the ex-President, the odium of his record as ruler of the Republic, will rise up in Judgment against him to aid in dragging him down to defeat. He will prove a Jonah, many times more disastrous to the Democratic party than in 18-83. The Irish voters allenated by his forcian policy while Tresident, will in the close States of Indiana, New-York and Connecticut vote against him. The hundreds of thousands of old soldiers throughout the North, who are indignant over his scores of bratal and insuffing veto messages of bills making appropriations for the support of mained and enfeebled veterous, will vote the Republican telefic in even greater multitudes than in 18-85. Above all, whatever the leaders may say or do to prevent it, the legions of stalwarf Democrats of Tammany Hall, and throughout the Empire State, will on the day of the election quietly vote for the Harrison and Reid electors to avence the insult to the popular chief, David B. Hill, and by burying the knile deep in Grover Cleveland, forever get rid of the hated Mugwumps."

THE CHINESE EXCLUSION ACT.

WORD "WHITE" AS APPLIED TO WITNESSES.

July 11.-Regarding the clause in the on net requiring that the identity of ent must be established by the testi-

Senator Dolph, of Oregon, who was conference committee that framed the modified bill, assured me that the use of the term "white" was a mere slip in the haste that characterized the legis lation at the last by reason of the fact that the ex lation at the last by reason of the fact that the ex-piration of previous exclusion laws was so near at hand. The whole scope of the legislation shows that there could have been no purpose to distinguish be-tween black and white witnesses. I conferred with the Attorney-General upon the subject before signing the bill, and he agreed with me that the courts, in view of these facts, especially in view of the amend-ments to the Constitution, would so construct this statute as to make no discrimination between black statute as to make no discrimination between black and white witnesses. In this state of the case I did not feel justified in withholding my signature from the bill and thus bringing all restriction upon Chinese immigration to an end.

"I am sure our colored people, largely engaged in industrial pursuits, would not have desired that. It is quite probable that an amendment or joint resolu-tion, expressing plainly the intention of Contress in this connection, may be secured at this session. Mr. Dolph has already moved in the matter, as you will have noticed."

EDUCATIONAL CONVENTIONS AT SARATOGA.

Saratoga, N. Y., July 11.-The Business Educators sarroga, N. F., any 11.—The furthess Educators continued their convention this morning in the Methodist Episcopal Church. These papers were read: "Scope of Business College Instruction," by G. W. Brown, of Jacksonville, Fla.; "Education," by R. C. Epencer, of Milwankee, Wis.; and "The Inspiress Woman," by A. D. Wilt, of Dayton, Ohio, Mr. Spen-Woman," by A. D. Wilt, of Dayton, Ohio. Mr. Spen-cer's paper closed with the query: "Do business colleges sufficiently understand what in the large sense business really is, and what the education they give ought to be and is destined to become?" He did not attempt to answer it. Professor Wilt discussed the woman in business from a practical standpoint. He welcomed her as a fellow-worker on an equal standing, and claimed for the business colleges the credit of being the pioneer in the work of placing the sexes on an equality. A discussion then followed, in which C. C. Grines, of Eastman's College, Poughkeepsie; Colonel George Soule, of New-Orieans; S. S. Packard and others took part.

W. R. Garrett, of Nashville, State Superintendent of Schools of Tennessee, in the National Council of Education this foreneon read the report of the Committee on State. County, District and City Supervision, sketching the improved system, and George A. Walton, of West Newton, Masse, a special report on the State school system. The reports were discussed by United States Commissioner Harris, Superintendent E. E. Sweet, of Ohlo, and a number of others. The report of Mr. Walton was ordered printed and the whole subject recommitted for further discussion.

THEY WILL USE MRS. CLEVELAND'S NAME. Chicago, July 11 .- Contrary to the strict injunction

must not be used for organization purposes in this campaign, some women of Monmouth, Ill., have or maized a Frances Cleveland Club of Warren County.

They not only have organized the club to promote Democratic interests with their moral support, but their determination seems to be to raise a campaign fand. They have sent to Theodore Nelson, secretary of the Democratic State Committee, a check for \$100 as a contribution toward the campaign fund.

FLOODS IN THE ADIRONDACES.

Troy, N. Y., July 11.-The Ausable and Saranac rivers, in the Adirondacks, began to rise Saturday night, and the streams are raging, the flood extending over the entire Adirondack region. Much damage has been done. The dams at Round Pound, Mud Pound and at Plattsburg were carried away, and a thousand logs were swept into Lake Champlain. The Chateaugny Ratiroad track at Round Pound was washed out and trains were delayed for hours. Goodale's starch mill at Meffitsville was wrecked by the flood. In Bloomingdale the heaviest rain-fall ever known occurred

estimated \$10,000 will be necessary to repair the lamage to roads and bridges within a radius of ter-niles.

TO KEEP CHOLERA AWAY FROM THE CITY

THE HEALTH DEPARTMENT TAKES PRECAUTIONS AGAINST THE INTRODUCTION OF THE DISEASE.

While the officials of the Health Department say list cholera probably will not be permifted to come Orders have been given to investigate with care every of sickness reported by the physicians in the city had died from cholem morbus, brought on by eating unripe truit. The investigations indicate a lack of confidence in the ability of Health Officer Jenklus and his assistants at Quarantino, not quite in keeping with the vertal expressions which the officials at Sanitary Headquarters use when replying to inquirtes by reporters. Health Officer smith headed off cloters at Quarantine in 1880, when several cases of the disease were brought to this port from Marsellles by the steamships Brittania and Alesia. He transferred the cholera-stricken passengers to Hoff man Island, and kept the other persons on the vessels under close observation until the disease was stamped out. Dr. Cyrus Edson, the present 8a ffary mitted to examine the cases of cholera at Quarantine, and to observe Dr. Smith's methods in dealing with the disease. Shortly before Dr. Smith was suc-

oxeded by Dr. Jenikas, the steamship Massilla brought many Russian Hebrew refugees to New York, and a number of them becaem ill with typhas fever after they had been distributed among several lodging houses. The typhas epidemic, thus started in the city, was not abated until several months had elapsed. The fear that Dr. Jenkins may allow cholera to pass Quaranthe if a vessel carries it to this port has been strengthened by the discovery that his assistant permitted a leper to land at Ellis Island from the steamship Amsterdam.

Dr. Cyrus Edson said yesterday: "The investigation of cases of deaths from cholera-morbus is a precuntion which is always observed when there are reported cases of the cholera at European ports. We do not fear cholera in this city, but we will use every possible means to keep it away or to stamp it out quickly if it appears. The discovery of the cholera germ by Professor Koch has made it possible for saidary officials to fight the disease successfully. The zerm can be introduced into the human system only through the month, either in food or water. The worst dancer to be feared from cholera would be the introduction of the germ into the Croton water supply. That would be a terrible calamity."

NEW-JERSEY TROOPS AT SEA GIRT.

Sea Girt, N. J., July 11 (Special).—The seeding f the Pennsylvania troops to Homestead is the presecond Brigade. Before breakfast the cewsboy swarmed into camp and quickly sold out their stock of papers. To night the men are gathered in their company streets, giving reminiscences of the strike staff, co-ducted guard-mount this morning. The men new tactics. The morning was taken up with the company drills, battalion drills and starpshooting. the first man prostrator by the heat; he is recovering. Companies G, of the 7th, and K of the 6th regiments, were on the fiftle range most of the day, qualifying the third-class men on the 100, 200 and 500 yard targets, and afterward practising volley and skirmish firing. The 3d Regiment signal corps drilled in the afternoon with flags, and at night with lasterns. Drills were also engaged in by the hospital and ambulance corps. The Essex Troop, of Newark, the only cavalry organization in the state, rode into camp at noon. A great crowd of sightseers attended the First Brigade dress parade at 6 o'clock. General Sewell reviewed the troops.

State Camp, Peckskill, N. Y., July 11.-The weather by the largest number of visitors seen in camp this year. The carriages were so numerous that a special detail of six men was stationed to keep the carriages from encronching on the paindeground. The signal corps attached to the regiment are very preficient in their work, and expect to make a good showing with

NAVAL NOTES OF INTEREST.

The torpedo-boat Cushing is expected to go up to the Navy Yard to-day on her way from Washington to the torpedo station at Newport. She will receive a few final fittings for the official test at Newport of the Whitchead torpedoes, of which seven have been made ready by E. W. Bilss & Co., of south Brooklyn, which firm has purchased the right of manufacture and which area has purchased to right of them to the has a contract to furnish a hundred of them to the Navy Department. At the same time that these trials are being made with the Whitehead torpedoes, the torpedo-bent Stiletic, which has been fitted with a

torpedo-bont Stilette, which has been fitted with a special launching apparatus for the Howell torpedo, will conduct a series of tests with that weapon.

It was reported at the Navy Yard yesterday that Captain Joseph N. Miller, who is to be relieved of the command of the flag-hip Chicago, of the Squadron of Evolution, at his own request, is to have command of the Mare Island Navy Yard at the expiration of a month's leave of absence. Captain T. F. McGlensey, who is to relieve Captain Miller of command of the Chicago, will probably take command at the end of this week. It is also reported that Rear-Admiral John Irwin, now in command at Mare Island, is to have command of the Pacific squadron to succeed Commodors and Acting Rear-Admiral George Brown, who has had the command since January 25, 1890.

FERRYBOAT AND TUG IN COLLISION.

The ferryboat Republic, of the Catherine st. ferry, came in collision with the tugboat Ambs D. Carver yesterday morning. It will take \$1,000 to repair the damage done to the tag. The Republic had just left her slip on the Brooklyn side on her 7:10 o'clock trip. The guards of the ferryboat knocked off part of the deck-house of the tag. Thomas Mullens, the cook of the tug, jumped overbeard when the collision took place, but was pulled back on deck again. The ferryboat was uninjured, but the tug. though able to steam away under her own steam, was hid up for repairs. Each captain regards the other as to blame.

THE COLUMBIAN CELEBRATION PARADE.

The line of march for the parade on the occasion of the Columbian Celebration in this city in Oc ober has been receiving the attention of the sub-committee appointed to select it. If approved by the General Com-nittee the route will probably be as follows: The mittee the route will protectly be as more up Broad-column will form at Battery Park and march up Broad-way to Park Row, through Park Row to City Hall Park, through the plaza in front of the City Hell to Broadway, up Broadway to Fourth-st., through Fourth st, to Washington Square, up Fifth-ave, to Fourteenth st., through Union Square under an arch to Broadway again, through Broadway to Modista Square, where there will be a second arch, thence through Broadway or Fifth-ave, to Forty-second-st.

WHAT HAS BECOME OF THESE CHELDREN? Bernard Smith, of No. 322 East Sixty-first-st., went to Police Headquarters yesterday and caused a general alarm to be sent out for his daughter, Mary Elizabeth, sixteen years old, and his son Thomas, Elizabeth, sixteen years on, three years old. He said that his daughter left home with her little brother on saturday morning intending to go to the Battery Park for an airing. She and the hoy did not return but were seen on Saturday afternoon at Secondaye, and Twenty inthest, by an acquaintance. Smith said he could not explain the continued absence of his children. The girl is tall for her age and stout, with light hair and complexion and blue eyes. She has a scar over her left eye. She were a dark plaid dress, blue hat and buttoned gaiters. The boy has blue eyes and light hair. He were a light dress, red coat and black stockings.

A BRITISH SCHOONER FINED \$1,400.

San Diego, Cal., July 11.—The British schooner Eliza Edwards was fined \$1,400 on Saturday for taking on a cargo at Santa Barbara without complying with the customs regulations. Captain Von Bromer paid the Priday, and nearly every bridge in the town was either thrried away or made impossable, and it is want of actual proof.

GRAIN AND PRODUCE MARKETS.

FEATURES OF NEW-YORK DEALINGS. The statement of the visible supply of grain in the "nited states on Saturday showed: Wheat, 23,124. 7,083,000 bushels, a decrease of 728,000 bushels; onts, 5,452,000 bushels, an increase of 479,000 bushels.

Cheaso, July 11 (Special:—Wheat was lower with fluctuations narrow, and most of the trading done by local professionals. The rather active non-professional business done at the start was because of the weakness in corn, fears that the Hatch bill might pass, and because if fine weather and large receipts at home and wear narkets abroad. This combination forced considerable wheat overbaard, Which had been tenaciously held over Sunday. After the break, resulting from the selling, there was a steady hardening of prices. September opened at 7d, sold to 73°s and 75%, and closed at 76. The visible supply statement and a decrease of 400,000 in counter supply statement and a decrease of 400,000 in counter clevator stocks. Northwest were the only bellish from in sight. Corn opened weak and became weaker under the continied linfluence of the twentream recent, the hat weather, and the one of the twentream recent, the hat weather, and the one of the twentream recent, the hat weather and the one of the twentream recent, the hat weather and the one of the second at 41°s, sold to 47°s, and closed at 30°s, and 10°s, and closed at 30°s, and 10°s, and closed at 30°s, and 10°s, and closed at 30°s, and closed at 41°s, sold to 47°s, and closed at 50°s. Providence were decidedly higher. Enclosers for tudaby and other large ledders were free burgers. The selling was scattered, and mainly by shorts. The cash demand for meats continues heavy. September ports of mend at \$11.65°s, and to \$11.05°s, and closed at \$11.05°s, and to selling was scattered, and mainly by shorts. The cash demand for meats continues heavy. September ports of mend at \$11.65°s, and to 10°s, and closed at \$11.05°s, and closed at \$11.05°s, and closed at \$11.05°s, and closed at \$11.05°s, and closed at \$11.05°s. The cash demand of the force of the mean continues heavy. September ports of mend at \$11.05°s, and closed at \$11.00°s of the mean continues heavy.

THE PETROLEUM MARKET.

The crude petroleum market showed moderate activity yesterday, the dealings at the Consolidated Exchange amounting to 45,000 barrels. The opening sales were made at 53 cents, but the price was bd up in the afternoon to 33 1-4, fell to 32 7-8 and closed at 53. Reduced oil in barrels was unchanged at 0 cents, in bulk at 3,50 and in cases at 6,60; crude oil in barrels at 5,40 and in bulk at 2,00. Foreign quotations were: Antwerp, 13 5-8 france; Bremen, 5,65 marks; London, 4 5-8-4 3-4 pence.
